

A**B****C****D**

Supplementary Figure 2. Forest plots depicting sensitivity and specificity for 185 *BRCA1* (A,B) and 147 *BRCA2* functional tracks (C,D). Lines denote 95% confidence intervals (CI). Tracks shown in blue font indicate those with the lower bound of the CI > 0.8. Tracks shown in red font did not test reference variants to allow calculation of specificity and sensitivity.
